0 Allgemeines

Die 1833 in der Nähe des Hamburger Hafens gegründete Sternwarte wurde 1912 auf den Gojenberg im östlich vom Hamburger Zentrum gelegenen Bergedorf verlegt (B: 53.4806, L: 10.2408 Grad). 1968 wurde die Sternwarte Teil des Fachbereichs Physik der Universität Hamburg. Hier befinden sich die Lehrstühle und Arbeitsgruppen im Bereich der Astrophysik. Neben Forschung und Lehre gewinnt an der Sternwarte die Öffentlichkeitsarbeit zunehmend an Bedeutung. 2020 wurden 115 schriftliche und rund 200 telefonische Anfragen aus der Öffentlichkeit sowie 9 Presseanfragen zu astronomischen Themen bearbeitet und beantwortet. Belastbare Besucherzahlen konnten für 2020 nicht erhoben werden, da sich der Besucherbetrieb pandemiebedingt fast vollständig in den Online-Bereich verlagert hat (wissenschaftlicher Austausch, Vorträge, virtuelle Rundgänge). Trotzdem wurde wieder ein reges Interesse der Öffentlichkeit an astronomischen Themen sowie an dem historischen Umfeld der Hamburger Sternwarte deutlich. Im Herbst wurde ein Hygienekonzept sowie ein Online-Anmeldesystem entwickelt, so dass ab Oktober bis zum erneuten Lockdown im November öffentliche Führungen angeboten werden konnten. Hierbei zeigte sich ein besonderes Interesse an abendlichen Führungen mit Beobachtungsmöglichkeit. Verschiedene auf der Sternwarte vorhandene historische Instrumente sowie ein kleines Radioteleskop bieten zu solchen Veranstaltungen sehr gute Voraussetzungen. Die rege Nachfrage der Öffentlichkeit nach Bildungsangeboten und Veranstaltungen zu astronomischen Themen kann bislang allerdings nur ehrenamtlich und daher in sehr eingeschränktem Maße bedient werden. In Zusammenarbeit mit dem Förderverein der Hamburger Sternwarte wurde ein Konzept zur Professionalisierung der Öffentlichkeitsarbeit an der Hamburger Sternwarte ausgearbeitet und die Sternwarte bemüht sich auf unterschiedlichen Ebenen intensiv um die Einrichtung einer entsprechenden Stelle. Diese Bemühungen sind bislang allerdings noch ohne Erfolg geblieben.
